## Krupp Head on Trial

FRENCH SAY  
VON BOHLEN  
INCITED RIOTS(BY CABLE AND ASSOCIATED PRESS)  
BERLIN (Germany) May 4.—The first day of the trial before a court-martial of Dr. Guise, president of the Krupp works, five Krupp directors and the workmen was spent largely in the prosecution in pressing charges designed to place responsibility for the blowing of the street doors on March 21.

The shooting of the streets, during out thousands of Krupp soldiers in the arrival of a detachment of French soldiers, is held to be the determining factor in the clash with French troops.

CONTROLLED BY WORKMEN  
The trial, and supported by a mass of witnesses, was continued today. The defense attorneys testified that the shooting of the streets was a spontaneous act of the workmen, and that the Krupp soldiers were only a few heard today.

The trial will continue tomorrow and probably Friday.

The police said the prisoner had admitted that he was wanted in San Diego, Cal., for jumping bail of \$250 on a charge of passing a worthless check. They declared that, though he answered the general description of Morse, he had proved to them that he was not Morse.

## LOOKED FOR TIDAL WAVE

## Honolulu Gets All Set, but Sea Disturbance Fails to Appear on Schedule

(BY CABLE AND ASSOCIATED PRESS)  
HONOLULU, May 4.—The magnetic observatory of the United States Geodetic Survey near Ewa, recorded an earth disturbance of "unusual magnitude" beginning at 6:05 a.m. today. The tremor reached its maximum at 6:15 a.m., and was estimated to be 2150 miles from Honolulu.

Prof. Arnold Romberg, seismographer of the University of Hawaii, had previously reported a "small" shock at 4:45 a.m., and at 5:11 a.m., at an estimated distance of 2000 miles. Expectations that tidal waves would visit the islands in the wake of the earthquake had not been fulfilled late last afternoon.

READY AT HILO  
HILO (Island of Hawaii) May 4.—This city made preparations to entertain a tidal wave this afternoon, about late lunch time.

The invitations were sent out by Prof. Thomas A. Jagger, Jr., in charge of the observatory at Kilauea volcano, thirty miles from here.

The professor's seismograph told him there had been a heavy earthquake 2500 miles from Hilo, either off the northern Mexican coast, or near the Aleutian archipelago, and saw a crowd of workmen waiting in a disorder.

HEIRESS WEDS  
FLORIST WHO  
TENDED ROSES(EXCLUSIVE DISPATCH)  
DETROIT, May 4.—A romance which began among the rose terraces and fountain-filled vistas of a handsome summer home ended last Saturday, when Florence O'cott Avery, heiress to the millions of John H. Avery, member of the Yonkers and the Detroit clubs, secretly married her father's gardener, Francis Barrigand. The story became known today.

This romance of a garden of love, which has started Indian Village and Grosse Pointe social circles, where Mrs. Barrigand was constantly entertained, is another international marriage of the flavor of that of Mathilde McCormick and Max Oser, with the disparity in ages reversed. This discrepancy in ages is given as the reason for the bitter family opposition which the match has met from the Avers.

At the County Building, where the license was obtained, Miss Avery gave her age as 42, while Mr. Barrigand said he was 34. He also said his home was France and that he is an iron worker by trade.

BEGAN TWO YEARS AGO  
The friendship of the two began two years ago, when Miss Avery endeavored to plan and alter the Avers's handsome country estate, Maple Ridge Farms, near Oxford, Mich. She had taken special courses in landscape gardening, design and general farming in private schools, and decided to try her talent. She employed Mr. Barrigand, who for a year the two worked side by side.

Suddenly the family became aware of something more than professional friendship. Mr. Barrigand abruptly discharged Barrigand last summer. She took her daughter and then she took her daughter and then she took her daughter.

Then the Avers's returned two weeks ago to open the country home. The family did not even know their daughter had been in communication with the ex-gardener.

Last Saturday night they received word of the Saturday afternoon wedding, and the couple had left for New York.

FAMILY SURPRISED  
"We believed that the affair was finished after we took Florence to the South," Mrs. Avery said. "I guess we have just lost a daughter."

"We did everything in our power," at first we did not believe such a thing was possible. I could not believe my daughter could commit such a foolish thing. It is another matter, however, that she is a child, while my daughter was old enough to know better."

The couple plan to do from now on. They can have no place in the life that is what makes this such a bitter blow.

## Portrait of a Lady Who Is About to Be Recognized

ALOOFNESS IS  
OUT OF DATE,  
SAYS HARDING(BY CABLE AND ASSOCIATED PRESS)  
WASHINGTON, May 4.—President Harding has turned his back with emphatic finality on the isolationism in the Senate. It is his view that no man, regardless of his previous record, can serve a term in the White House and go out of office believing it possible or advisable for America to remain aloof from the rest of the world in economic and political affairs.

To the President, that ancient Moholeth of the policy in the White House, the "great divide" of 2000 miles of ocean cannot longer stand the test, when two Army aviators make a nonstop flight from New York to San Diego.

NOT RETREATING  
Mr. Harding is not retreating from his irrevocable stand against the League of Nations, as given in his recent address in New York, but he is getting back to an association of nations, or to be more precise, association with the nations, for adjustment of world issues from which the United States is not properly separable.

The White House today authorized such an outline of the President's position. It was intended as an elucidation of Mr. Harding's view that there is no current necessity for a campaign of propaganda in behalf of his proposal for conditional American adherence to the permanent court of international justice.

Unwilling as he is to make the world court a personal issue between himself and the Senate just now, the President, it was made clear, is wholly of the opinion that there never will be another President of the United States, who will believe on leaving the White House that the United States can remain aloof from the other great nations of the world.

WITH AVIATION FEATS  
With radio bringing remote sections of the world into more intimate daily contact and two daring American aviators showing that the broad expanse of the American continent must yield to conquest, the time is past, Mr. Harding holds, when mere distance can be urged as an argument for political and economic aloofness.

Leads, Marquand and Kelly are regarded at the White House as the pioneers of those who will follow with even greater feats and the reading of Wednesday's New York newspapers in San Diego on Thursday, but a symbol of progress.

ASSERTED  
KIDNAPEE  
CAPTURED

Following the reported kidnapping Thursday night of his sister, Agnes Jolly, 16 years of age, of 2505 East Fifty-third street, Sam Jolly last night captured William Joseph, who he asserts is implicated in the girl's disappearance. Jolly said he recognized Joseph as the driver of the automobile in which his sister had been carried away last night. He said he turned the man over to a policeman.

Mrs. Jolly told authorities her daughter was kidnapped in an automobile by three men, two of whom she said she recognized to be Hugh McCann and James Williams, said to be known to police. Hearing screams Thursday night, the mother said she saw her daughter in an automobile. When she endeavored to reach the machine, she said one of the men cried, "here comes the old lady," after which the car drove rapidly away. She said she was almost run over by the automobile. She did not decide to enlist aid of police until last night, thinking perhaps the girl would return.

Police and deputy sheriffs in looking for the two men asserted by the mother to have been in the car are extending their search over the State. It was said last night that the men were believed to have taken the girl to San Francisco.

The girl was described as being about five feet two inches tall and weighing 120 pounds. She has brown eyes and brown bobbed hair. When she left she had on a blue silk dress and was barefoot.

BREAK NEARS  
AT LAUSANNE  
CONFERENCE(BY CABLE AND ASSOCIATED PRESS)  
LAUSANNE, May 4.—The United States has been dragged into a controversy that threatens to cause the collapse of the second Near East peace conference. The delegates are desperately seeking a solution of the situation to prevent the rupture feared in consequence of radical difficulties between the Turks and the Allies and the Americans over the special legal guarantees to be accorded to foreigners. Instead of the former consular courts abolished by Turkey as part of the capitulations.

The controversy hinges on the authority to be granted the foreign legal advisers Turkey agreed to employ, and also upon the possible obligations incurred by the Allies in their fevers activities at the last conference when the French and Italians aided by the American representative intervened at the last minute, in an unsuccessful attempt to prevent the collapse of the conference.

ALLIES WITHDRAW TERMS  
Ismet Pasha again today offered to sign the Italian formula which was accepted then, but which the Allies now have withdrawn. The British never having ratified Ismet's declaration today during the proceedings that the Americans had distinctly approved the Italian draft.

Sir Horace Rumbold, the British high commissioner at Constantinople, said the compromise had been effected after Lord Curzon left Lausanne. Therefore it was after the close of the conference and was not binding. He read a somewhat revised version of the original demands under which arrests, searches and seizures of foreigners in Constantinople and Smyrna could be made only with the consent of the legal advisers, but he said it was only reasonable that foreigners should be able to sue for special guarantees for some years after the abolition of the capitulations.

CHARGES BAD FAITH  
Ismet Pasha, head of the Turkish delegation, accused the Allies of bad faith. He declared vigorously that Turkey regarded the legal-adviser question as closed, and asserted she must refuse to discuss it again. Sir Horace Rumbold said:

"This bill appears to be an attempt to protect those who refuse to pay their just debt and is evidently designed for that purpose." and while the supporters of the rejected measure were expressing indignation and threats of reprisal, the executive office returned a second proposal with the blunt comment:

## NON-STOP FLYERS, ROBBED OF RECORD, HIT RULING International Aeronautical Body Refuses to Recognize Feat of Lieuts. Macready, Kelly

(EXCLUSIVE DISPATCH)  
SAN DIEGO, May 4.—Telegrams and cablegrams of congratulation continued to pour in for Lieuts. Oakley Kelly and John A. Macready today from prominent government officials of this and foreign countries and from aviation associations and airmen.

The two American aces plan to rest for several days following their epochal non-stop flight from New York to San Diego, which took them from ocean to ocean in less than twenty-seven hours.

Lieut. Macready went to Los Angeles to visit his parents and Lieut. Kelly remained here. The latter was the principal speaker at the Santa Luncheon Club, and tonight was believed to be in the city. A branch of the Masonic fraternity, it was also announced that Lieut. Macready would be initiated upon his return from Los Angeles.

The reported action of the International Aeronautical Body in refusing to recognize the record established by Kelly and Macready is not improbable that a movement will be started to recognize the feat and regulations of the body.

The F.A.I. was organized ten years ago and they are just that much behind the times, he declared. "The simple fact is that in America alone aviation has advanced so far that the F.A.I. is not only behind the times but it is also a hindrance to the progress of the world."

Army and Navy aviators here today expressed resentment over the action of the International Aeronautical Body in refusing to recognize the record established by Kelly and Macready. It is not probable that a movement will be started to recognize the feat and regulations of the body.

The National Aeronautical Association at Washington, today sent a telegram to its local representative, Mr. Howard E. Morin, saying: "F.A.I. Article 171 requires a minimum of 24 hours of flight."

Morin's telegram had proposed that the F.A.I. should be modified to recognize the feat of Kelly and Macready. He said that the F.A.I. was a hindrance to the progress of the world and that it was not only behind the times but it was also a hindrance to the progress of the world.

MACREADY VISITING HERE  
Air Hero Now in Los Angeles to See Parents After  
Greatest Plane Flight in History

Horace aren't the only means of locomotion that carry horsemanship. According to Lieut. John A. Macready, holder of the world's altitude, duration and distance records for airplanes, who was in Los Angeles yesterday to visit his parents, Mr. and Mrs. Benjamin Macready of 614 Carondelet street. According to Macready, the T-2 carried a pretty good specimen of equine footwear on its epoch-making nonstop transcontinental flight from New York to San Diego.

The mechanics yanked out the motor and worked night and day putting in a new one and going over every part of the ship.

"Ten minutes after she was ready we took off for New York via Washington, and spent the next week or more hanging around waiting for the slim possibility that perhaps one of our boys, Hudson Bay, might be able to take her around the world. Kelly and I stuck around the Weather Bureau in New York and waited for the boys of the Air Service station."

The miles they flew "picking dashes" with only a few feet between their feet and the ground, a margin so close that one misstep of a single cylinder probably would have meant death, the success and successful replacement of a failing gauge in mid-air, the ceaseless tugging at the controls of the overloaded plane, the tedious checking of the many instruments, the constant lookout through the long hours of darkness to "pick up" some landmark by which to locate their position, the frightful battle with the drowsiness brought on by sheer physical exhaustion and the monotonous drone of the big Liberty engine, and I am sure anxious to see what the New York newspapers said about our "take-off."

When we found out for sure that we were going to be able to start, we grabbed a bit of lunch and climbed into the ship. By a few minutes after noon on the 2nd inst., we were ready for the start. Kelly was at the wheel up by the engine, and I am sure anxious to see what the New York newspapers said about our "take-off."

ready took up the work on the supercharger for airplane engines where Maj. Schroeder left it, and succeeded in reaching the highest altitude ever attained by man in a Leper plane equipped with the supercharger, approximately 40,000 feet.

The transcontinental nonstop flight of Macready and Kelly, which began at Rockwell Field, San Diego, for several weeks, and probably will attempt in the near future to make a new endurance record, hoping to stay up for more than forty hours. A trip around the world by air is on their program for next year.

Both Macready and Kelly are known as the finest type of pilots, for they combine with their splendid skill and daring a thorough engineering knowledge—a very rare combination. They have absolute confidence in each other and an unlimited confidence in the great future of aviation.

Carrying a letter from his brother officers at Mineola, L. I., to Kelly and Macready, the latter, Lieut. Macready yesterday spent several pleasant hours at luncheon with the two aviators at the Talmadge residence on Long Island, where they were staying. Kelly and Macready were among the aviators at Mineola Field.

After spending yesterday morning posing for photographers at his home at 641 Carondelet street, Macready left for New York in a motion picture car to where he could find the Talmadge residence.

"I have a letter to deliver," he said, "and as I am going back to San Diego tonight, I want to finish up all the Los Angeles commissions entrusted to me. Just before the boys started the boys at Mineola said: 'If you land in Hollywood, forget to give our regards to the boys at Mineola.'"

Lieut. Macready found Norma Talmadge in a far corner of the United lot of the head of the horseman of the period of Charles IX of France, who were working in some of the houses of the city.

The appearance of the aviator yesterday broke up the show. Norma Talmadge, who was in the city, was among the spectators both in and out of costume running forward to congratulate him.

Miss Talmadge rescued Lieut. Macready by inviting him to lunch, which he accepted. He was then taken to the hotel where he was staying. Macready visited the "set" where Norma Talmadge was filming "Dulcy" under the direction of Sidney Franklin. Studio cinematographers filmed the aviator with both stars before the cinematograph was over.

The letter from the Long Island aviators read in part: "To Long Island's Fairest Daughter, Norma Talmadge, we have commissioned our brother officers to visit you in New York City. We want to thank you for the many times which you have given to the boys of the Air Service station."

## DIVORCE IS GRANTED TO CIRCUS MAN

Al Barnes Stonehouse and Wife Air Troubles in Court at Las Vegas

(EXCLUSIVE DISPATCH.)  
LAS VEGAS (Nev.), May 4.—Al G. Barnes Stonehouse, circus promoter, was today granted a divorce from Sarah Jane Stonehouse by Judge J. Ernest Walsh, sitting in place of Judge Orr in District Court. Mrs. Stonehouse was paid \$100 per month alimony and the attorney's fees.  
The case had been on trial for five days and was vigorously contested by Frank R. McNamee, attorney for Mrs. Stonehouse, and Richard B. Stuebel, attorney for Mr. Stonehouse. Mrs. Stonehouse asserted that her husband was guilty of many acts of cruelty and that she had been riding in the circus with him and forced him to take her on top of an animal cage to see her father. Mrs. Stonehouse alleged that Mr. Stonehouse was a violent drunk and that he had been riding in the circus with her and forced her to take her on top of an animal cage to see her father.  
The couple were married April 1, 1921, after his divorce from his former wife in a series of sensational trials here and in Los Angeles. Mrs. Stonehouse was formerly Jane Hartigan, a barmaid, and was in the circus with him and forced her to take her on top of an animal cage to see her father.

ment that it was under an obligation of being an outright attempt to take away certain fundamental rights of the people. The subcommittee veto has been applied to the bills of support and opposition without discrimination and while complaint has been made that measures of opposition have been subjected to a more sympathetic consideration, the record of bills signed and vetoed does not bear out the charge. As a matter of fact Gov. Richardson follows a prescribed course in reaching a decision as to the merits or demerits of the measures that come to his desk from the Legislature. Each adopted bill is first sent to the legislative council bureau, where a corps of lawyers under John A. McNamee, legislative council, prepares a careful analysis, both as to the purpose of the bill and as to its effect. The measure then goes to a deputy in the office of the Attorney General, where an opinion is written concerning its constitutionality. The Governor then receives the bill and he either signs it or vetoes it. The Governor's veto is not final, but it is a check on the Legislature. ## CHINESE CONCESSION ON RADIO TO BE TEST

OPEN-DOOR POLICY HINGES ON QUESTION OF NO

WASHINGTON, May 4.—The United States government regards the execution by China of the contract with the Federal Telegraph Company for the construction of a wireless station in China as a most crucial test of the policy of the open door in China, according to an official statement of the American position made through the legation at Peking. The statement goes into the so-called Mitsui monopolistic concession in great detail and takes vigorous issue with the official Japanese position recently set forth in a statement given by the Japanese Minister to the United States. The American statement declares, among other things, that "if the Chinese government is to be allowed to execute the contract, it will be a concession to the Japanese monopoly in the wireless communication in China. ## Sum Smuggled by Plane From Fleet to Land

(BY A. P. NIGHT WIRE.)  
NEW YORK, May 4.—The rum fleet which helped off J. Edgar Hoover after being driven from its old mooring place of Sandy Hook, has adopted seaplane transportation to defeat the efforts of the government to block landing of liquor cargoes. It was announced at the customs house today. A report of Lieutenant-Commander Camden of the Coast Guard cutter Seneca, said the Seneca had surprised a Haage gray seaplane, without identifying number or insignia, at the side of the yacht later yesterday. The seaplane signaled the aviators that the Seneca was a government craft and the plane quickly sped away.

Washington Not Supporting Claim Offhand

To Consider All Demands Before Deciding

Possibility of Conflict in but Two Points

(EXCLUSIVE DISPATCH.)  
WASHINGTON, May 4.—There are only two points on which the Chester concession can be considered in conflict with the claims of any other nation, in the opinion of officials of this government. The United States does not, in making this admission recognize the validity of either the French or British claims but is willing to enter the circumstances surrounding them before deciding the extent to which the Chester concession shall be supported. ## Sum Smuggled by Plane From Fleet to Land

(BY A. P. NIGHT WIRE.)  
NEW YORK, May 4.—The rum fleet which helped off J. Edgar Hoover after being driven from its old mooring place of Sandy Hook, has adopted seaplane transportation to defeat the efforts of the government to block landing of liquor cargoes. It was announced at the customs house today. A report of Lieutenant-Commander Camden of the Coast Guard cutter Seneca, said the Seneca had surprised a Haage gray seaplane, without identifying number or insignia, at the side of the yacht later yesterday. The seaplane signaled the aviators that the Seneca was a government craft and the plane quickly sped away.

(BY THE ASSOCIATED PRESS.)  
PARIS, May 4.—Charles Paddock, the only American competitor in the international students' meet, was again the outstanding star in the second day's racing at the Porte Dore stadium. He won the semifinals in the 75-meter dash in 15.4 seconds, or two-fifths of a second behind his own world's record of 14.8 seconds, set in the 1920 Olympic games. He was running against time, as he was the only American in the race, and he was running against the clock, as he was the only American in the race.

#### OBSERVATIONS

INNOCENT BYSTANDER

Regardless of what will-made rules the officials of the A.A.U. may find to back them up in their disqualification of Charles Paddock, U.S.C.'s wonderful sprinter, Mr. Paddock is a remarkably good student. He received an invitation to compete in the Paris games as a chance to broaden his education by making a rather extensive trip through Europe after the Paris games.

Paddock received the official O.K. of the university to make the trip and likewise of the national college organization. He announced that he intended to make the trip to Paris to see his college days over and over again.

Paddock didn't ask the permission of the A.A.U. to make the trip for a number of good reasons. He was competing as a member of an institution over which the A.A.U. has no control and in a meet with which the A.A.U. has no connection.

The A.A.U.'s only objection to Charles's trip seems to be based on the fact that the time he spent in Paris would be a loss to the A.A.U. if he were to win a medal.

So now they intend to disqualify Paddock for going and winning a medal. They intend to disqualify him and attach whatever stigma they can to his name.

There may be some folks who don't like Paddock's personality and there are probably a lot more who are jealous of his magnificent ability. It is hard to find any right thinking person with sympathy for the A.A.U. attitude.

(Copyright by The New York Times)  
SANDWICH, (Eng.), May 4.—Francis Quimet, a great American golfer and true Yankee sportsman, tonight is the owner of the royal St. George's grand challenge vase, the most coveted amateur medal play golf trophy in the world.

Although the loss of the \$2500 gold cup to the Americans was a bitter pill for the British to swallow, a big gallery of gallant sportsmen cheered heartily for both the victor and vanquished at the end of the round.

In spite of Quimet's victory, the golfers here always will remember Willing's great fight. From the start Francis was playing beautifully, while the doctor was struggling to keep even, and had to fight all through the round.

Again at the eighteenth, Willing had to hole a pitch shot from the rough to the right of the green to square the match. The ball pitched over the hummock and tricked down the fast green, and kissed the hole.

Francis played brilliantly enough to break the heart of any golfer who is not as courageous as Willing at the 42nd yard fourth. Using a spoon on his second shot he laid the ball dead a foot from the pin and took a three against Willing's five and led by two strokes.

Jack Rusem decisively beat Ted Murray after a somewhat one-sided bout. Rusem had the better of the going all the way. Salter continued his winning streak by taking the verdict from George Smith and Packer McMiller won over Abe Connors and Dale Hill landed a sleep-producer on Joe Pimental's jaw in the third round.

Good Golfer Should Adapt Himself Quickly

Sandwich Links Are Not So Formidable

BY WALTER HAGEN,  
British Open Champion

THE American amateurs have had plenty of practice over the Deal links by this time and should know the course as well as anyone ever will know Deal. It is the hardest golf course to get acquainted with I ever knew. When Jim Barnes and I played there three years ago we had our troubles. Jim's remark was characteristic of the course when he said:

"I have played a half-dozen rounds over the links now and we are still strangers. I might play a dozen more rounds and still feel the same way about this course."

It has always been my contention that a good golfer can adapt himself to conditions quickly. If one has a variety of shots he will find some of them suited to a seaside course. Sandwich, which is just next door, was more friendly to us and we solved the problems there much quicker than we did at Deal.

# INS BREAK IN CLASS SILENCE

Brings Out Facts in Hazing Death  
 Into Slaying of Mount Continued  
 Western Student Was in California

(EXCLUSIVE DISPATCH) VENTURA, May 4.—Persistent looking into the "conspiracy" that hid the truth of the death of Leighton Mount, a student of the University of California, who was found dead in a desert, has been a class battle. A breakdown on the case one who has guilty of the tragedy, the today indefinitely con- sistent to give the Mount's forces an oppor- nity into the matter more than five undergraduates last night, forty this and twenty more this. The prosecutor admits small progress, but points are:

The present Minister to Brazil, Mr. Horiguchi, was elevated to the rank of Ambassador. Later in the month Mr. Horiguchi will be elevated to the peerage, but this will not take place until Mr. Horiguchi, Japanese Ambassador to Washington, has been awarded a similar honor. The decision to have an embassy in Brazil was taken during the recent meeting of the Diet, when the House of Representatives and the House of Peers, both enthusiastically passed the bill calling for appropriations for the purpose.

OWN BLOOD SUCKED BY MEN IN DESERT  
 TRAVELERS GOING TO MEXICO RESCUED BY OFFICERS IN ARIZONA  
 (EXCLUSIVE DISPATCH) AZO (Ariz.) May 4.—"A brand- new tenderfoot stunt," according to men familiar with local condi- tions, was tried by Rupert Mc- Glasahan and Leslie Stone who thought themselves lost on the desert, near Alamosa, while trying to cross the border line in- to Mexico. They cut their wrists and sucked their own blood. McGlashan re- vived to a degree, but his com- panion collapsed. So Stone was dragged into the shade of some brush and McGlashan managed to stagger on until he found a cattle- man, who took water to his com- panion. The next day they were found by officers near the Miller ranch and were brought back to Ajo. They arrived here last Wednes- day with a new coupe from Los Angeles. As the machine carried no license plate, there was investi- gation by local officers. The new arrivals then abandoned the car and started off toward Mexico. McGlashan is said to be a British subject who entered the United States illegally. Two pounds of dry wood of any non-resinous species have about as much heating value as a pound of good coal.

Arrangements are now being made for a get- together meeting. Leaders of the Eta declare that they will have the meeting even if the police frown on it. The Koreans in Japan number somewhere about 60,000, while the ostracized Eta are in the neighborhood of 1,000, 000.

# HUGE DROP IN BRITISH UNIONISM

Membership Has Declined Million and Half During Last Two Years

BY JOHN STEELE  
 (BY RADIO AND EXCLUSIVE DISPATCH) LONDON, May 4.—Arthur Henderson, member of Parliament and secretary of the Labor Party, an- nounced today that the mem- bership of British trade unions has fallen in the last two years from 6,500,000 to 5,000,000, and other labor leaders say he has probably understated the decline. Part of the decline is accounted for by the dropping out of the in- dustry of "war dilutes" whom the unions insisted must join. Part is caused by the exhaustion of the funds of unions by strikes, lock- outs and unemployment. It is a noted feature of British trade unions that they are more of sick benefit societies and burial clubs, etc., than the fighting unions. So the funds are exhausted and the members are liable to drop off. The Trade Union Congress is now starting a big "back to unions" campaign.

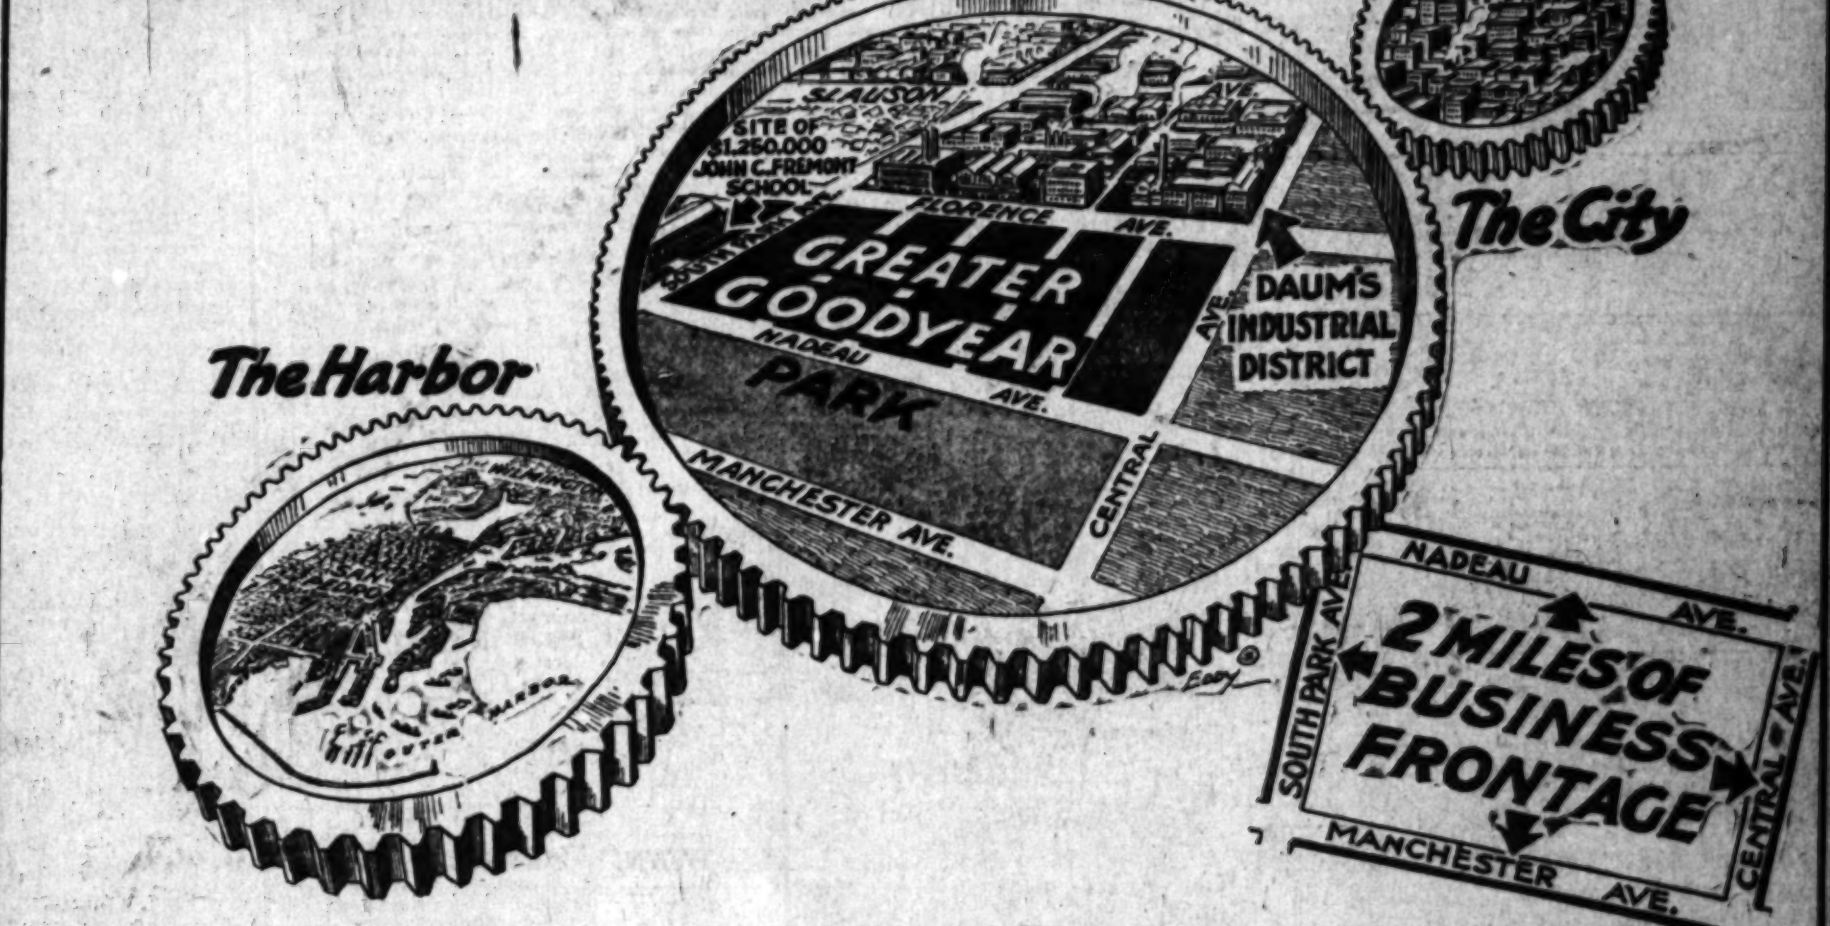

Japan Envoy In Brazil Now Ambassador  
 (BY CABLE-EXCLUSIVE DISPATCH) TOKIO, May 4.—The Japanese Legation in Brazil was raised to the rank of an embassy to the last inst. The present Minister to Brazil, Mr. Horiguchi, was elevated to the rank of Ambassador. Later in the month Mr. Horiguchi will be elevated to the peerage, but this will not take place until Mr. Horiguchi, Japanese Ambassador to Washington, has been awarded a similar honor. The decision to have an embassy in Brazil was taken during the recent meeting of the Diet, when the House of Representatives and the House of Peers, both enthusiastically passed the bill calling for appropriations for the purpose.

OWN BLOOD SUCKED BY MEN IN DESERT  
 TRAVELERS GOING TO MEXICO RESCUED BY OFFICERS IN ARIZONA  
 (EXCLUSIVE DISPATCH) AZO (Ariz.) May 4.—"A brand- new tenderfoot stunt," according to men familiar with local condi- tions, was tried by Rupert Mc- Glasahan and Leslie Stone who thought themselves lost on the desert, near Alamosa, while trying to cross the border line in- to Mexico. They cut their wrists and sucked their own blood. McGlashan re- vived to a degree, but his com- panion collapsed. So Stone was dragged into the shade of some brush and McGlashan managed to stagger on until he found a cattle- man, who took water to his com- panion. The next day they were found by officers near the Miller ranch and were brought back to Ajo. They arrived here last Wednes- day with a new coupe from Los Angeles. As the machine carried no license plate, there was investi- gation by local officers. The new arrivals then abandoned the car and started off toward Mexico. McGlashan is said to be a British subject who entered the United States illegally. Two pounds of dry wood of any non-resinous species have about as much heating value as a pound of good coal.

KOREANS UNITE WITH JAPANESE OUTCASTS  
 (BY CABLE-EXCLUSIVE DISPATCH) TOKIO, May 4.—Koreans in Japan and the Eta, the ostracized class of Japanese who recently re- voked against the discriminatory treatment to which they are sub- jected, have decided to shake hands on the ground that both of them are fighting for the same ideal— equality with the Japanese and the right to live well. Arrangements are now being made for a get- together meeting. Leaders of the Eta declare that they will have the meeting even if the police frown on it. The Koreans in Japan number somewhere about 60,000, while the ostracized Eta are in the neighborhood of 1,000, 000.

# THE MASTER COG

# THE LIFE OF LOS ANGELES

depends upon Industry. Its whirling wheels catch up the raw materials of the Great Southwest, rend them, crush them, and finally re-assemble them into the finished products of Commerce. In the process millions of dollars are invested, hundreds of thousands of men employed. Where industry concentrates, there, also, does population center. In Los Angeles today the largest single industrial district in America is forming. Adjoining residential districts will be the most thickly populated in the city.

Artist Eddy has pictured this district, Southwest Industrial Gateway Terminal, as the master cog of a giant machine—the cog which transmits energy to the other cogs. In another cog is the business district. In a third the Harbor.

As a NECESSARY part of the "master cog" he has included Greater Goodyear Park, business and residential subdivision just south of Mr. Daum's project. Little need be said to explain the picture. Industry is the giant which draws millions together in great cities. With- out it cities could not be. It produces the wealth which pays the butcher, the baker and the candlestick maker.

When, for any reason, the wheels of Industry stop, thousands cease work, payroll windows close, sales in retail stores fall off, bank deposits decrease—depression comes.

Los Angeles today is growing only as Industry makes growth possible.

In 1921 a factory and a half per-day started in this city.

In 1922 two factories per day started. \$900,000,000 worth of goods were manufactured in this city last year.

There are in operation in Los Angeles today over 4150 factories, according to the Chamber of Commerce, 70 per cent of which have been built since 1918.

Industries MUST continue to come to Los Angeles because it is the logical industrial center of the West. Its Harbor already is the largest intercoastal shipping port of the Nation. Through that Harbor its factories have access to the trade of the Orient, South and Central America, Mexico and Canada.

Its municipal hydro-electric power will turn factory wheels at a cost equivalent to \$3 per ton coal.

**Homesites . . . \$950**  
**Business Sites \$1300**  
 Small payment down, balance easy terms. 5% off for 1/2 cash. Reasonable building restrictions. Perpetual race restrictions. Improvements paid for.

Climatic conditions make factory operation cheaper and workers more efficient.

It is sound to say, therefore, that because of Industry Los Angeles has grown, is growing—will continue to grow.

Now the factories are concentrating in the logical place—between the business district and the Harbor. \$7,000, 000 worth—88 concerns have purchased sites in Southwest Industrial Gateway Terminal.

The Los Angeles Railway says this district is now the most rapidly growing in the city. It is preparing to take care of the increase in population by extending the yellow car line south on Central Ave. to 77th St.

The Board of Education is preparing to take care of the situation by building the \$1,250,000 John C. Fremont School at 79th and South Park Ave.

This company is doing its part by subdividing Goodyear Park and Greater Goodyear Park, where, since October 1, \$4,104,150 worth of lots have been sold and \$1,254,150 worth in the last 33 days.

If you wish a home or an investment, this is the place to buy, because GREATER GOODYEAR PARK is the heart of the city's most rapid develop- ment. If Los Angeles goes forward—and nothing can stop her—Greater Goodyear Park will be the first to reflect the prosperity.

WE HAVE SOLD \$1,254,150 WORTH OF LOTS IN THE LAST 33 DAYS

 (BY CABLE-EXCLUSIVE DISPATCH) LONDON, May 4.—King George and Queen Mary will leave London tomorrow afternoon for Rome on a visit to the King and Queen of Italy, during which they will also make a formal visit to the Pope. This is the first visit of the English sovereign to the Pope since the reformation, although King Edward called on the Pope before he came to the throne.  (BY CABLE-EXCLUSIVE DISPATCH) RIGA, May 4.—Samuel Spewack, Moscow correspondent of the New York World has arrived at Riga after being held up and searched at the frontier by the Cheka, who confiscated all his papers and note- books excepting his passport. Mr. Spewack declared the Moscow cen- sorship is intolerable, preventing the impartial reporting of any Russian news. The soviet press reports that a revolutionary tribunal at Kras- nodar sentenced seven priests, in- cluding Bishop Rozenstinski to seven years at hard labor.

**Germans Give Wild Welcome To McCormack**  
 (BY CABLE-EXCLUSIVE DISPATCH) BERLIN, May 4.—The audience refused to leave when the lights were extinguished after a recital by John McCormack last night, forcing him to sing two en- cores in semidarkness. No German singer ever brought such a crowd to the Philhar- monic, and rarely has one so in- troduced his diction and technique impeccable. The program included Schubert's "Lara," which no singer ever at- tempted before in concert here, and English, Italian and Irish numbers.

**GERMANY AND POLAND IN CONSULATE SCRAP**  
 OFFICIAL AT THORN BRINGS TROUBLE FOR BERLIN OVER ACTIVITIES  
 (BY CABLE-EXCLUSIVE DISPATCH) BERLIN, May 4.—A case some- what similar to the Newcastle Consulate affair has arisen between Germany and Poland. The Polish government has demanded the re- moval of the German Consulate at Thorn on the score of the Con- sulate's asserted anti-Polish ac- tivities. There is one of the principal centers of former German-Poland, with a large German population which is vigorously fighting the Polish assimilation campaign. The German element is said to have re- ceived support through the Con- sulate. The government declares that while the recall of undesired con- sular or other diplomatic officials can be demanded, in accordance with international usage, the de- mand for a complete suppression of an important Consulate is un- precedented and unjustifiable.

## The HILLSLOPES & tree-clad level

### HIGHLANDS of Bellehurst Park

**This Is the Best Way to Bellehurst Park**  
**BY AUTOMOBILE**—Drive to Glendale via Los Feliz Boulevard, Glendale Boulevard, San Fernando Road or Colorado Boulevard until you reach Glendale's principal street, Brand Boulevard. Then turn north (towards the mountains) on BRAND BOULEVARD and continue through Glendale's business district to Mountain Street, then 3 short blocks to the right to Bellehurst Park.  
**BY PACIFIC ELECTRIC**—Take FRONT CAR of Glendale Line trains anywhere on 6th Street between Main and Figueroa. Get off at Mountain Street and walk 3 short blocks east.

#### Facts about the FINAL HALF of Beautiful Bellehurst Park

Hillside Villa Sites with wonderful views.  
 High, wide, level lots covered with bearing oranges, lemons, olives and grapefruit. Also magnificent shade trees of many varieties.

Full restrictions protect the future value of the property. Improvements included in purchase price.  
 Pacific Electric trains to and from downtown Glendale and Los Angeles park within two blocks. Excellent frequent service. Only 7 blocks to the business center of Glendale.  
 All lots over 650 feet above sea level.  
 Magnificent views of valley and mountains with the city at your feet.

Pre-opening prices way below surrounding values and on easy terms.

Destined to be one of Southern California's most famous home communities as developed by the Walter H. Leimert Co.

We set forth fully in these columns yesterday the reasons why we place the second one-half of beautiful Bellehurst Park, Glendale, on sale NOW rather than in early fall, as we had originally planned.

Even our magnificently successful sale—more than \$1,000,000 in four weeks—a clean sweep of the entire first unit—failed to satisfy the widespread demand through all of Southern California for the chance to invest in such a marvelous property in the heart of such a wild-fire growing city as Glendale.

Not scores, but hundreds, of investors, disappointed in securing the lots they wanted in the first one-half of Bellehurst Park, are clamoring insistently for MORE.

Therefore the second one-half of Bellehurst Park goes on sale not this fall, but TODAY. In our judgment the rush and excitement in connection with the final offering of Bellehurst Park will eclipse the sensational events accompanying our first offering in Southern California. For there is nothing that compares with Bellehurst Park in all Southern California.

#### "The Tree-Clad Level Highlands"

This portion of the second half of Bellehurst Park is covered with glorious old oaks, magnolias and palms, and groves of oranges and olives.

It is that portion of this 200-acre old estate property lying toward the foothills, and its fertile groves are slightly more elevated than that part of the property first sold.

It contains the sites of the estate dwellings which were surrounded by rare fifty-year-old ornamental trees. A few choice sites have magnificent trees upon them.

#### "The Hillslopes"

The hillslopes contain sites of an entirely different character from that part of Bellehurst Park hitherto offered.

Here in the foothills of the rugged Verdugo Range, with a wide sweeping view over city, valley and the distant mountains are enchantingly picturesque homesites, on winding roads, knolls, crests, oak-clad slopes, EVEN FINER than the foothills of the Santa Monica Range, closer in time to downtown Los Angeles, and one-third the price.

### This Great Sale Opens For Reservations Today at 7 o'Clock A. M.

A great sea of homes will fill this splendid valley from mountain range to mountain range, but NEVER AGAIN can you get anything so beautiful and so

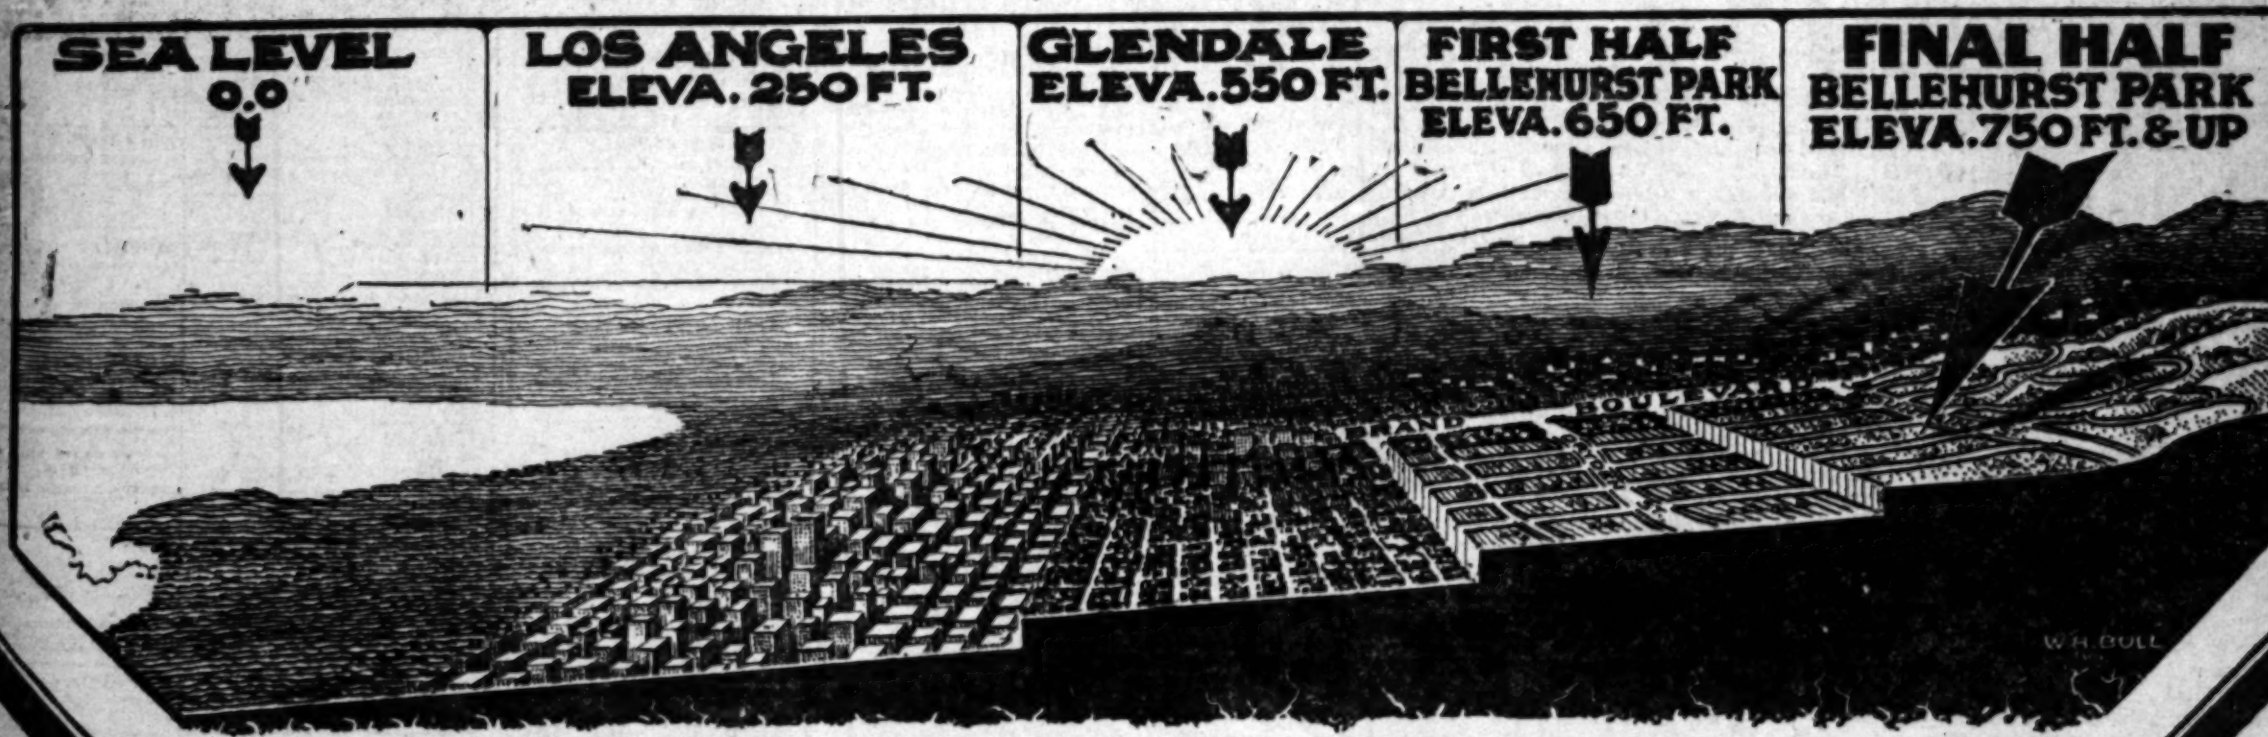

choice as these orange groved and wooded lands at the edge of the foothills in the heart of Glendale AT ANY PRICE—let alone such below-value prices as you can command today.

Therefore come early. Break all other engagements if necessary. This is the FINAL HALF of Bellehurst Park. There will never be another property like it to the end of time.

FOX EXPANDS

MANY NEW DIRECTORS AND WRITERS SIGN

By Grace Kingsley  
Bringing with him a portfolio filled with contracts for new play scenario writers and directors, Fox M. Wurtzel, western pictures manager for William Fox, has returned from New York following a two-weeks conference in that city with executives of the William Fox Film Corporation.

Mr. Wurtzel at once plunged into preparations for production at the studio in conformity with the new policy of the corporation as announced some time ago. This means a discontinuance of program pictures and the of activities focused upon important specials.

The new policy has brought new new directors and writers to the studio. Mr. Wurtzel will direct the new picture "The Great Train Robbery," formerly of Goldwyn's, which will be a big production. Mr. Wurtzel will also direct "The Great Train Robbery," formerly of Goldwyn's, which will be a big production.

## Harold Goodwin is Signed to Star in Witwer Films

Harold Goodwin, who recently completed work in the screen version of two of Booth Tarkington's novels, "Alice Adams" and "The Flirt," was signed yesterday by the Powers Studio to appear in a series of feature pictures. Goodwin's first assignment will be as the lead in H. W. Wirtz's new picture called "The Great Train Robbery." Goodwin's mannerisms and characteristics have brought him unusual success in portraying the awkward, sentimental youths which have made Tarkington's books famous. Under his new agreement, Goodwin will work along these lines. Goodwin is said to have played in nothing but leading parts since he started at the old Griffith-Biograph company at 12 years of age. Goodwin also appeared in the picture "The Great Train Robbery" and "Man to Man."

Nagel Starts on New Film for Goldwyn

Marshall Neilan yesterday afternoon initiated Conrad Nagel into the Goldwyn fold at the Culver City studio in "The Kidnappers." Mr. Nagel's initial appearance before the Neilan camera, following his recent consummation of an arrangement with Goldwyn whereby he will appear under this banner for a term of years, proved a severe test.

FILM PRODUCER DUE HOME FROM EAST

Louis B. Mayer, head of the Mayer studios, is due from New York today after four weeks spent in the eastern city in an important business conference with his business counsel and partner, J. Robert Rubin, and the other two distributing organizations.

CHARLIE ENTERTAINS GIRLS FROM ORPHEUM

The happiest bunch of girls in town yesterday were the English Rocking dancers of "The Land of Fantasy" at the Orpheum. For they were all guests of Charlie Chaplin at the latter's studio yesterday morning and got and fore gathered with their greatest hero, Chaplin being a Londoner, and the girls all from his "home town," the little affair was arranged with the co-operation of both sides and it was a real gathering of friends.

TRAFFIC VIOLATOR JAILED

Thirty days in City Jail was the sentence imposed by Police Judge Chambers yesterday on D. K. Childs, 21 years of age, brought into court charged with six separate violations of the traffic ordinance. All were minor violations. Judge Chambers discredited a plea for clemency by the youth's father.

## BLUEBEARD PICTURE IS COMPLETED

Gloria Swanson Starred in Elaborate Screen Version of Fairy Tale

Following completion of final scenes yesterday in "Bluebeard's Eighth Wife," a Sam Wood-Paramount production in which she is starred, Gloria Swanson departed for New York, where she will make "Zaza" under the direction of Allan Dwan, at the Famous Players-Lasky Long Island studio.

"Bluebeard's Eighth Wife," which has been declared to be Miss Swanson's most elaborate picture since she joined Paramount pictures several years ago, contains as features a vision sequence that brings to the screen the fairy tale of "Bluebeard" in a series of colorful scenes.

Nagel Starts on New Film for Goldwyn

Marshall Neilan yesterday afternoon initiated Conrad Nagel into the Goldwyn fold at the Culver City studio in "The Kidnappers." ## VALENTINO TO VACATION HERE

Will Soon End Dancing Tour and Return to Coast for Summer

Rudolph Valentino and his wife, professionally known as Natacha Rambova, will return to Los Angeles June 1, according to Douglas Gerrard, the motion-picture actor and director, who returned from the East last week. Mr. Gerrard is a close friend of Mr. Valentino, and accompanied him last summer on his tour, and plans to come to California to rest for the summer. Mr. Valentino is at present dancing up in Canada, "but he will shortly finish his tour, and plans to come to California to rest for the summer," Mr. Gerrard said. "Valentino is a close friend of mine, and I am inclined to accept it," he said.

Two Pictures Demonstrate Versatility

William Selter's versatility as a director is well exemplified in the fact that two of his productions, a virile melodrama and a high-powered farce, are featured attractions at local theaters next week. He directed "The Little Church Around the Corner," a Warner Brothers screen classic at Loew's State Theater, and "Bell Boy Thirteen," starring Douglas MacLean, at the Kinema.

AUTHOR OF BELLBOY YARN A HOTEL BUG

Austin Gill, who wrote the story from which "Bellboy Thirteen," Thomas H. Ince's latest comedy farce, was adapted, is known among his friends as a "hotel bug."

Gill has three hobbies—ranching, fishing and hotel life. When he is not overseeing in gentleman-farmer fashion his ranch in New Mexico, or sitting idly in a rooming house waiting for a bite, his address is "Some Big Hotel, Somewhere in America or Europe."

## Los Angeles Harbor

### HARBOR TO BE MECCA FOR SHIPS

New Lines Will Establish Here; Bureau Chief to Make Survey

Harry J. Summers, head of the American Bureau of Shipping in Southern California, will depart from Los Angeles Harbor this morning on an extended voyage in the interests of the shipping bureau, the indirect results of which are expected to establish Los Angeles Harbor as the chief offshore passenger terminal on the Pacific Coast. It is understood that Mr. Summers' itinerary will include Hawaii, Central America and the East Coast.

The new passenger services, one to New York via Havana and another to the Orient, are to be established out of Los Angeles within a few months by two of the Pacific Coast's largest shipping firms, it was learned yesterday. Details of both services are expected within the next fortnight, it being planned to operate liners owned at present by the United States Shipping Board on both the intercoastal and oriental lines.

During Mr. Summers' absence local activities of the American Bureau of Shipping will be in charge of A. T. B. Shields, a marine surveyor, who comes here from the Seattle office of the bureau.

### Port Board Decides to Honor Bill

A requisition to pay F. L. Mowder \$504.11 for services rendered as chief accountant of the Los Angeles Harbor Board was approved by a 3-to-1 vote of the Harbor Commission yesterday. The measure was opposed by Edgar McKee, president of the Board of Harbor Commissioners.

McKee held that Mowder's appointment under an emergency was a violation of the city charter. It was contended yesterday that up to April 3 Mowder was acting under requisition and since that date he was acting under emergency.

The commission also approved the payment of \$158.45 signed by O. B. Kibele and C. E. Richards, Harbor Commissioners. The demand for payment was drawn in favor of the Los Angeles Shipbuilding and Dry Dock Corporation. This demand involved an old row among the commissioners. President McKee had refused to pay the bill incurred by repairs to barge No. 7, which he contended had been made without asking for bids on the job.

An opinion from City Attorney Jean M. Stephens was filed by Mr. McKee holding that the action of the majority of the board declaring the existence of an emergency for Mowder's appointment was specifically declined to say what would be the holding of a court if questioned there, and the facts supporting the emergency were gone into by the court.

A minority report was filed with City Auditor Myers by President McKee, protesting the bill for these bills. The matter will probably be held up pending an investigation by the City Auditor.

## (EXCLUSIVE DISPATCH.)

## LONDON, May 4.—That "art for art's sake" has proved to be an impractical slogan for British artists and that they have been compelled to substitute the motto "art for money's sake" in order to make a living is certain to be the popular impression when the one hundred and fifty-fifth exhibition of the Royal Academy is opened to the public Monday.

## Academician exhibitors, a miscellany of soldiers, cabinet makers, politicians, peers and society leaders together with those fortunate enough to have invitations from the academy council, saw the exhibition at a private view today.

## Of the 1500 works accepted, approximately one-fourth are portraits of persons able to pay fancy fees for having their likenesses "moralized" on canvas by painters who just now are in vogue.

## The exhibition is top-heavy with faces of notable of the social, political and business worlds, but it is not entirely lacking in other features. It is perhaps the most dressed-up—even overdressed—exhibition in the last decade. Candid treatment of the female form is conspicuous by its absence, the notable exceptions being three nudes reclining by stream in John Cooke's "The Water Fall" and those gracing one of Philip Connard's pastorals. Overdressing is a necessary incident to the disproportionate number of peers, judges, churchmen, soldiers and other personages depicted in the splendid court regalia. Judicial robes or gold-braided uniforms.

## Another feature is the disappearance of subjects of war-time inspiration. Sir William Orpen's patriotic painting, dedicated to the unknown warrior, represents the only spot of khaki on canvas, a few plaster models of war medals and a few medals on the wall.

Irish—Sir James Shannon and Mark Fisher—are shown posthumously. The most honored position in the whole exhibition is accorded to Shannon's striking portrait of the Prince and Princess of Wales, the former in naval full dress and the latter in a colorful oriental costume. Shannon's five additional works are portraits, including one of himself. Four of Fisher's small continental landscapes are shown while a peasant, who recently made a portrait of the Duke of York and is now commissioned to do the Prince of Wales, is represented by a single portrait.

There are paintings of the Duke of York's bride by J. R. Muller, Lander, Queen Mary by W. B. Franklin, Marchioness Curzon by Sir John Lavery and something reminiscent of Barge's portraits of the Westminister family, now in the national gallery, can be observed in Orpen's likeness of Roland Knevelier who is a wealthy picture dealer.

The more notable of the impersonal subjects include W. L. Wyllie's remarkable "Part of London," A. J. Munson's painting of the 1921 Derby Winner, "Humorist," and Jockey Steve Donoghue and a new handling of that very difficult subject of Wren's masterpiece, St. Paul's Cathedral, by Arthur Streeton.

ALIEN CASE

JURY GIVES  
ODD VERDICT  
Rights to Clear Her Name

Concels Chinaman  
Entered Country; Spies  
Asserted Helpers

After considering for more than two hours the case of the Chinese woman, the jury today returned a verdict that she was not guilty of the charges against her.

The government contended that the woman was a spy and that she had been in contact with the Chinese consul in Los Angeles.

The woman's lawyer argued that she was a native-born American and that she had never been in contact with the Chinese consul.

The jury was divided 11 to 2 in favor of the woman's innocence.

The woman was released from custody and was allowed to return to her home.

The case was one of the most sensational in the history of the Los Angeles courts.

The woman's name was kept secret throughout the trial.

The case was a major test of the government's ability to prove espionage charges.

Dolley Plans Drive to  
Stop Liquor Sales

"Flying Squad" Is  
Being Imported

Commissioner "Big Bird"  
Will Not Escape

The recent three-mile ruling of the United States Supreme Court, making it unlawful for vessels of any nation to enter a United States port with stocks of liquor, is expected to result in greatly increased activities of the rum-running fleet making Los Angeles Harbor its southern base.

The United States Coast Guard Service will be ready for this new flood of liquor.

Two former submarine chasers, which sufficient speed to overtake the fastest of the whisky navy, have been ordered for patrol duty out of Los Angeles Harbor during the summer season, when rum runners frequent Southern California waters in large schools.

The speedy cutters have three-pounders mounted on their decks forward and powerful searchlights to brighten up the dark corners of the innumerable coves of the Channel Islands.

The first cutter to arrive will be the U.S.S. Vaughan, now at San Francisco under orders from Washington to proceed to Los Angeles for duty. She will replace the Coast Guard cutter Tanager, a powerful, slow-moving tug which has been stationed here for the past year. The Tanager has been ordered to duty on Puget Sound during the absence of the Vaughan and sister ship, the U.S.S. Tanager.

The Vaughan will probably be the second cutter sent here for duty. It was said yesterday.

The "flying squad" will arrive in Los Angeles the first of the week, and the campaign will be launched immediately. Additional members, he said, would be added to his permanent staff in a few days. These, as he pointed out, would be given an opportunity to see the special agents at work.

The Dolley plan is a part of the "flying squad" which is being organized to combat the rum-running fleet.

WILL INITIATE

REJECTED LAW

Crime Commission Will Push  
Majority Verdict Act

Determined to Give Voters  
Chance to Decide It

To Go on Ballot at the Next  
General Election

The Los Angeles Crime Commission, meeting in executive session at the California Club yesterday, formally decided to place by initiative on the ballot at the next general election the constitutional amendment providing that three-fourths of a jury may return a verdict except where such verdict might involve the death penalty.

In spite of the very general support given this proposal by practically every element of California's population, a majority of the Assembly has refused to permit it to go on the ballot. By a curious coincidence, the names of those who thus denied the people the right to adopt or reject this law for themselves will appear on the same ballot with the amendment.

The circulation of the initiative petitions will begin at an early date and simultaneously in several parts of the State. The measure has the earnest support of the San Francisco Chamber of Commerce, the Commonwealth Club of San Francisco and many other northern organizations which will probably sponsor the movement in that section.

By unanimous vote the commission decided to request the City Council to enact an ordinance which will provide appropriate penalties for anyone making a false statement in an application for a city position under civil service.

Mr. Silberberg, director of the commission, made a report upon the results of the commission's work in increasing the numbers and activity of the police force. Arrests during March for all causes totaled more than 18,000, the highest in the city's history. At the same time the number of violent crimes showed a notable falling off, especially the number of highway robberies committed.

POLICE UNITY SOUGHT

In connection with the forthcoming combined police and fire alarm signal system, a committee representing the commission, the fire department, the police department and the city electrician is investigating a plan to locate police call stations adjacent to the fire alarm stations.

The plan is to connect the police call stations with the fire alarm stations by a system of electric lines. The plan is to connect the police call stations with the fire alarm stations by a system of electric lines.

By these means it is expected to save twenty hours on a charge of kidnapping his 4-year-old son, Charles, Jr., failed to appear in court at the Mexican capital yesterday, according to information received in Los Angeles.

The child had been placed temporarily in a children's home in Mexico City until the court could decide to which party the child should be awarded. It is asserted that the child was abducted last year, taking him from Hermosa Beach to Canada, and then to Mexico.

Instructions from the City Council to the City Attorney to prepare contracts for public buildings and sewer, fifteen in all, were returned to the Council yesterday by City Attorney Stephens with the ruling that the city charter placed such action in the hands of the Board of Public Works.

Mr. Stephens said: "Inasmuch as your honorable body has inadvertently advertised and awarded contracts and in view of the fact that the construction jobs to which they refer are delayed, I believe that it will be sufficient if the contracts are now referred to the Board of Public Works for their approval and execution."

Mr. Stephens' action suggests the taking of power from the City Council for such contracts and placing it with the Board of Public Works where he says the charter dictates it should be placed.

Preacher Summoned But Deputies Arrive at Request  
of Boy's Sister and Stop Wedding

A wedding of youthful neighbors was plucked in the bud last night when Deputy Sheriff Hoffman summoned the preacher and his bridegroom's sister and her fiancé.

Everything was ready for the wedding, a license had been obtained on statements of the boy that he was 21 years of age and on the statement of the girl's mother that her daughter was 17 and a minister had been called to officiate, when the two deputies arrived.

The youthful would-be-weds, whose names were Walter B. Schradt, 17 years of age, 1154 S. Santa Anita street, and Helen L. White, 1154 S. Santa Anita street, were neighbors and had been sweethearts for several months.

According to the story told by the bridegroom, the youth proposed to marry the girl last night. The girl's sister, who was 17 years of age, also had to be summoned.

Former Angeleno Sued for  
Kidnaping Son Disappears,  
is Word Received

Charles R. Parmalee, former stunt aviator of Los Angeles, who was granted a writ of amparo by a Mexican City court, giving him immunity from prosecution for kidnapping his 4-year-old son, Charles, Jr., failed to appear in court at the Mexican capital yesterday, according to information received in Los Angeles.

The child had been placed temporarily in a children's home in Mexico City until the court could decide to which party the child should be awarded. It is asserted that the child was abducted last year, taking him from Hermosa Beach to Canada, and then to Mexico.

Instructions from the City Council to the City Attorney to prepare contracts for public buildings and sewer, fifteen in all, were returned to the Council yesterday by City Attorney Stephens with the ruling that the city charter placed such action in the hands of the Board of Public Works.

Mr. Stephens said: "Inasmuch as your honorable body has inadvertently advertised and awarded contracts and in view of the fact that the construction jobs to which they refer are delayed, I believe that it will be sufficient if the contracts are now referred to the Board of Public Works for their approval and execution."

Mr. Stephens' action suggests the taking of power from the City Council for such contracts and placing it with the Board of Public Works where he says the charter dictates it should be placed.

Preacher Summoned But Deputies Arrive at Request  
of Boy's Sister and Stop Wedding

A wedding of youthful neighbors was plucked in the bud last night when Deputy Sheriff Hoffman summoned the preacher and his bridegroom's sister and her fiancé.

Everything was ready for the wedding, a license had been obtained on statements of the boy that he was 21 years of age and on the statement of the girl's mother that her daughter was 17 and a minister had been called to officiate, when the two deputies arrived.

The youthful would-be-weds, whose names were Walter B. Schradt, 17 years of age, 1154 S. Santa Anita street, and Helen L. White, 1154 S. Santa Anita street, were neighbors and had been sweethearts for several months.

According to the story told by the bridegroom, the youth proposed to marry the girl last night. The girl's sister, who was 17 years of age, also had to be summoned.

CONSTRUCTION BEGINS SOON

Great New Building of Standard Oil Company Will  
Rise at Tenth and Hope Streets

The Standard Oil Company of California, which recently erected a great office building in San Francisco, will have its own home in Los Angeles, according to an announcement made yesterday. The company has completed the purchase of the property at the northwest corner of Tenth and Hope streets, and at this location will erect an eight-story, Class A office building of the most modern type, designed for occupation by the local administrative offices. The building, together with the site, will represent an investment of \$1,500,000, it is stated.

The lot, one of the largest in the city's business district, has a frontage on Hope street of 150 feet, with depth of 150 feet. To provide for the widening of Tenth street the building will be set back about twenty feet on that side, giving a structure approximately 150 feet frontage, with a total area of about 184,000 square feet.

Plans for the building are being prepared by George W. Kelham, who designed and erected the new Standard Oil Building in San Francisco, as well as the laboratory and office building of the company at the refinery at Richmond. Mr. Kelham is engaged now in the preparation of working drawings for the building, which will be of Spanish Renaissance architecture.

No contracts for construction work have as yet been awarded. The purchase of the site, however, has been completed by the Standard Oil Company of California. The new building will contain approximately 150,000 square feet of space, and will be a landmark in the Los Angeles business district.

Construction work is to be started in the near future, and it is expected that the building will be completed and ready for occupation early next year.

## WOMEN IN PLEA TO SAVE TREES

Eureka Convention Delegates  
Wire Harding, Governor  
United States is Urged to  
Enter World Court

Pledge Also Taken to Help  
Working Girls

BY MYRA NEE

**Times Staff Correspondent**  
EUREKA, May 4.—One thousand women from every corner in the State of California, stood at high noon yesterday when the sun shined down on the hills of the 100-year-old redwood trees in the heart of the woods in Humboldt county, and pledged themselves to "conservation, the hope of civilization."

They were led by Mrs. J. C. Ureghart, president of the State Federation of Women's Clubs, and Mrs. J. C. Ureghart, executive officer of the State Federation of Women's Clubs.

Telegrams were sent to Gov. Richardson, thanking him for his cooperation in their work; to President Harding, asking recognition for his interest in the conservation of redwoods, and to the meeting of the General Federation of Women's Clubs in Atlanta.

A fund was started for the purchase of a portion of land with its trees as a small step toward conservation.

**WOMAN GIVES LARGE SUM**

Mrs. J. B. Lorber, chairman, of Santa Monica, made the motion and received the contributions, one of which was a large sum by Mrs. J. M. Meeker of Glendale, given because she was the daughter of a third generation of Californians. More than half of the women present signed that they were native Californians.

The club women further pledged themselves to conservation for the young men of the nation by doing all in their power to protect world peace by urging the entry of United States into the International Court of Justice, to the conservation of young womanhood with a promise to look to the laws of the State which affect the working hours of women and children.

Mrs. Ureghart requested outline of her policy which she said should be in line with that of the redwoods, that is, to stand firm, and to be the broadest possible program of education; that address and the speaker of the day, Mrs. Russell J. Waters of Los Angeles, former State president, read a telegram from the Friday Morning Club, the largest in the federation, pledging support to Mrs. Ureghart. This, Mrs. Waters said, was the first time a large club had ever cared to give its unqualified support to any administration.

**GIFT FOR PRESIDENT**

Mrs. Margaret Ford Thayer of Pasadena, in behalf of the Los Angeles district, presented to Mrs. Ureghart a hand painting of the path through the redwoods, and which she had come to the table where were seated 800 women.

The Village Club of Pasadena, in the Red River Valley, gave gifts of dairy products of the valley to every woman in the group.

A partial list of new appointments include Mrs. Charles McCalister, Los Angeles, president; Mrs. Charles Wiley of Long Beach, corresponding secretary; Mrs. J. C. Terrell of Montebello will also be on the board.

Mrs. Robert Dean of San Francisco, president of the Housewives League, signed the telegram and Gov. Richardson, urging him to sign the State employment agency bill, which has already passed both houses.

OF SHERIFFS

Sailing on her fourth round-trip voyage to Honolulu the liner Calawalli will leave Los Angeles Harbor at noon today bearing a passenger list of midwestern vacationists and business-men and a cargo of building materials, citrus fruits and Southern California produce for the island trade.

The Calawalli will leave Honolulu on her return trip the 14th, one day ahead of her scheduled departure from that port, according to an announcement made today by officials of the Los Angeles Steamship Company. The one-day advance in sailing date was made to accommodate some sixty shriners of Aloha Temple, of Honolulu, who after being entertained in Los Angeles by the members of Al Malakiah Temple will depart for Washington, D. C., to attend the annual Shriner convention to be held in that city.

The Calawalli will sail from Honolulu with a full passenger list. R. C. Cullen, district passenger agent, announced.

**ENTERTAINER MADE**

DEFENDANT IN SUIT

Mrs. Alma Jones, entertainer, and other persons unidentified, were defendants in a suit for \$2500 damages brought by Charles S. Barnes, who was sued up for being in Judge Hewitt's court yesterday.

The plaintiff asserts that one night several months ago he came to a party at the home of Mrs. Jones, who was being held in Judge Hewitt's court yesterday. The entertainer was not in court yesterday but was represented by the legal firm of McDonald and Thompson. Atty. Tom White, representing the plaintiff, asked that she be brought in court today to disclose the identity of the man said to have been with her on the night in question.

Young Wife's Charges of  
Parent's Kisses Win Her  
Freedom From Son

BY MYRA NEE

The unnatural affection displayed toward her by her father-in-law, a wealthy St. Louis merchant, caused Vesta Clayton Joyce to leave Samuel Francis Joyce, her "cousin" sweetheart, she testified yesterday in Judge Summerfield's division of the Superior Court.

The young woman, who is highly educated and refined, stated that her father-in-law kissed her constantly when his wife was not present but "they were not nice kisses," she finally wrote to her mother, Dr. Yonnie Willis of this city, she said, and the latter told her to come home. Mrs. Joyce was granted a decree.

She stated that she met her husband while attending Stanford University. He was a wealthy St. Louis merchant, she said, and told her he was a millionaire in his own right.

He told her that he was a millionaire, and she went to work for him. He told her that he was a millionaire, and she went to work for him.

ford smiled for the first time at the trial, and the happy reunion. But the smile soon faded as the present with its cares intruded. She sighed.

**WEDDING BACK**

Leo Wilford, the husband of whom she waited, has been for the past three months a fugitive from justice under suspicion of murdering William Fisher.

"I want him to come back and be with me," she said simply, "I know he's innocent. But he's sick and if he goes to jail it will kill him. He got tuberculosis in the war."

Sitting in the office of Attorney R. S. Hahn, through which the husband was attempting to arrange his release on bail in case he surrenders himself, she told her friends of her attempts to help him and to clear his name again. But the authorities will not agree to free him, she said.

So, though Wilford is willing and wants to give himself up, he fears that his strength would fail him and he remains in hiding while an alien enemy girl spends hours in the courtroom, the attorney who holds the key to her husband's freedom.

The Village Club of Pasadena, in the Red River Valley, gave gifts of dairy products of the valley to every woman in the group.

## NONUNION MEN COMING TO PORT

(Continued from First Page)

is the first real step taken so far to break the strike.

**RED INFLUX URGED**

The situation as a whole remained unchanged yesterday. It was discovered, however, from bulletins and telegrams which fell into the hands of the police that the intention to concentrate their forces at the harbor with the probable intention of causing more trouble if possible.

A duplicate of a telegram broadcast to I.W.W. leaders in all sections of the country from local Wobbly headquarters was obtained by police.

The telegram was signed by T. Fred Cassidy, a port delegate, office box 544, San Pedro. Police learned that this telegram has been sent to the following men:

Harry Finberg, general defense officer, 1901 West Madison street, Chicago; Robert Nelson, secretary-treasurer, 1100 Broadway, New York; E. M. Estes, 605 Broadway, New York; E. M. Estes, 605 Broadway, New York; E. M. Estes, 605 Broadway, New York.

The document, police believe, is the forerunner of a plan on the part of the strikers to attempt to practically take the law into their own hands and run Los Angeles Harbor as they see fit.

**SPEAKER SENT TO JAIL**

The four Wobblies arrested at the harbor Wednesday when police broke up a meeting called before Police Judge Shepard yesterday. "Rev." Dr. H. H. Hahn, who was arrested, served five days in jail. He had been given the alternative of going to jail or pleading himself not to address further meetings and he left the decision to his wife.

She advised him to take the jail sentence. This he did not do, but being led off to his cell he broke down and clasping his wife to him sobbed that he was doing it for his comrades. The court reminded him that he was not being taken to jail to die, but that there was no occasion for mock heroics. "Rev." Wedge then submitted.

"Rev." Wedge's "grand stand" court actions are said not to be unusual for him. Several years ago, while pastor of a church in a Wisconsin city, it was learned, he was arrested following an altercation with a young man who formerly had been employed as a janitor at the church. He was found guilty of assault and charge and was fined a small amount, with the alternative of five days in jail. In being arrested he accused the man of being a communist and he was released.

Leo St. John also was found guilty of picketing and was sentenced to jail for 10 days. The last of the quartet, will be tried today. Sixty-seven vessels are tied up in the harbor, the result of them being anchored in the congested area, is expected to be materially relieved when the nonunion workmen arrive. The 180 extra patrol boats and harbor police who were kept there, although no trouble is now feared, as picketing has practically stopped and no street meetings are allowed.

**MEMBERSHIP IN**

I.W.W. Basis of

Divorce Action

Is membership in the I.W.W. a ground for divorce in California? The Superior Court will be asked to decide this question in the suit brought yesterday by Mrs. Allen against her husband, Arnold Allen.

The wife charges that her husband became a member of the I.W.W. after their marriage, and that he joined the organization and continued as a member in the face of the protest of the plaintiff. It is known that the I.W.W. is known as a criminal organization, and that the fact that Mrs. Allen was a member of the organization was reflected to her discredit. It is also charged that I.W.W. in this case caused her husband to work often enough to support her. The complaint was filed by Attorney Hal Hughes.

**APPEAL IS DENIED ON**

MURDER CONVICTION

Robert Brown, found guilty in Judge Sidney Reeve's division of the Superior Court of the second-degree murder in connection with the killing of William Antier, was yesterday denied an appeal by Justice Finlayson of the Second District Appellate Court, who handed down an opinion affirming the former judgment.

Brown shot Antier on the night of May 22, 1922, in an apartment house where the former made his home, and in which Antier was a visitor, the guest of other residents of the house. The shooting was in retaliation for a quarrel between the men, in which Brown, who admitted the shooting, told the jury that he was in self-defense, accused Antier of disturbing the peace. Antier was removed to a hospital, where he died four days later. Brown had a statement declaring that he had shot him four times in the back.

**ESCAPEE AIDE SENTENCED**

Police Judge Chambers yesterday imposed a maximum sentence of two years on W. Brown, a negro, who attempted to escape from the county jail by climbing over the wall.

Brown was captured after he had taken in his automobile James Higley, who was being taken to jail in a patrol wagon on a charge of violating the narcotic laws. The automobile was overtaken by the patrol wagon after a long chase. Higley was given a fifty-day jail sentence.

## PHI PHIS RIDE RADIO WAVES

Tinkle of Hawaiian Strings and Playing of Orange High School Orchestra Fill KHJ Day

BY BEN A. MARKSON  
KHJ made last night's power to soothe the savage interference. The program was presented by the Phi Phi, honor society, College of Music, University of Southern California. There are radio fans who have not yet learned how to tune in on KHJ's new wave-length of 89.5 meters, but experimenting with their dials they soon will get the proper combination, and then they'll be surprised.

The Phi Phi members displayed to which she gave the charming atmosphere of rural festivity to which the idiom traces its origin. "Romance" by Schubert, was Marguerite Hauber's selection, a composition of odd, impressive harmonies to which she gave full import. She recognized the somewhat stern poetry in the mood of Schubert. Another selection by her was "Chopin Waltz in A Flat." She is a member of the College of Music faculty.

The trio also appeared at the noon program, playing among other popular selections, "Drowsy Waters," "Apple Sauce," "Carolina in the Morning," and "Toot Toot Tootie." When the Phi Phi station first went on the air, more than a year ago, the Hawaiian trio was among its favorite standards.

**SOLOS COLORFUL**  
In the U.S.C. program, Alberta Ems and David Sanders, violinists, accompanied by Adelaide Trowbridge, pianist, members of the College of Music faculty, gave "First Movement from Bach Concerto," a number of sturdy, beautiful rhythmic and facile workmanlike. It was played with dexterity and accord of movements. Alberta Ems, with Adelaide Trowbridge at the keyboard, also favored with Viennese "Fantasie Appassionata," weaving a colorful pattern with fine tone.

Frances Orth, soprano, whose voice is a delight to hear, was accompanied by Rita Lewis in several songs aptly fitted to her vocal capabilities. The songs were "Floods of Spring," by Rachmaninoff, "The Spirit Flower," by Campbell-Tipton, "The Cuckoo," by Lehmann, and "Silence of the Night," by Rachmaninoff.

Another singer, with a voice of pleasing quality, was Robert Lackey, baritone. Accompanied by Cornell Rosner, Mr. Lackey favored with songs of which we never tire, "Homing," by Del Riego, "On the Road to Mandalay," by Olney Sparks, and "Since First I Met Thee," by Rubinstein. Mr. Lackey's voice has excellent power and modulation.

**PIANISTS GIFTED**  
The Phi Phi Society appears to be rich in gifted pianists. There were three on the program. Evelyn Sutphen, Dorothea Sutphen, and Marguerite Hauber.

Miss Sutphen gave "Sindbad's March Grottesque," maintaining perfect tempo in that bizarre section, and "Waltz in F Sharp," by Magna Zucca, a gliding, melodious vehicle. Miss Sutphen's shrewd musicianship drew applause.

Miss Sutphen played "Melody" by Rachmaninoff, with a romantic beauty of cadence, and "Shepherd's Rag," arranged by Percy Grainger.

ductor, and Phyllis Kayes favored with a piano duet, "Norwegian Dance, No. 1," by Grieg, and Mr. Richards was the accompanist for Pauline Thompson and Le Verne Brown, violinists, in their selection.

You'd be surprised what a little  
of the right kind of white enamel

Finest thing you ever used. You  
wouldn't believe it could be so su-

## QUIZ WOMAN IN MURDER RIDDLE

Screen Actress Questioned in  
Remington Death

Friend of Slain Man to be  
Found Yet

Attorney Says Police Must  
Apprehend Her

Alma Torriani, Hollywood motion-picture actress, whose name has been mentioned frequently as having been a friend of Earl Remington, slain club man and alleged society bootlegger, was questioned last night at her home, 1123 Cahuenga avenue, by Detective Lieuts. Herman Cline, Charles Craig and Charles Jarvis, who have been investigating the case since the reported confession of a "former sweetheart" who said she witnessed the killing.

After the officers had finished their questioning of the actress, they were informed by her attorney, Mr. Hahn, that she could shed no light on the identity of the person who caused Remington's death. Her name was eliminated from the investigation on the statements of the officers, and other friends of the slain club man will be questioned in an endeavor to learn the identity of the mysterious client of Atty. S. S. Hahn.

**LOOKS TO POLICE**  
The police must apprehend the woman, who is said to have confessed to her attorney that she saw two ex-soldiers slay Remington, according to a statement issued yesterday by Attorney Hahn. His client will not give herself up, he said, but he will surrender her, he asserted. She has decided to keep silent and protect the two men, who she says, killed her former lover after she had told them the story of her wrongs.

Mr. Hahn's statement was made following a lengthy interview with Captain of Detectives George Hone.

**REFUSES TO SURRENDER**  
"My client, who is wanted for the murder of Earl Remington, will not surrender," he said, "because the authorities have declined to promise her release on bail pending the murder trial. She will therefore rely on the inability of the authorities to apprehend her."

"She has no confession to make, although she has made some admissions. If she is apprehended, she will avail herself of her constitutional rights to be mute. It will be incumbent upon the prosecution to connect her with this murder, and when they do, we will offer a ten-cent defense, which I am confident will bring forth an acquittal at the hands of a jury."

Mr. Hahn's statement was made following a lengthy interview with Captain of Detectives George Hone.

**MUST PROTECT CLIENT**  
"As her attorney and as an officer of the court, I have co-operated with the authorities in every way possible, but I have done everything in my power to protect the best interests of my client and with my oath of honor."

"It is my sworn duty as an officer of the court to maintain impartiality, the confidence, and at every point to myself, to preserve the secrets of my client. I am not a party to the law, it is not incumbent upon me to determine whether the crime is in question is a just or unjust cause. If on the contrary, it is my sworn duty to defend every person charged with a criminal offense. I have done all in my power, now it is up to the police."

## Aged Chinaman Is Buried With Oriental Honor

Chinatown closed all its doors yesterday to honor the memory of Wong Ark, venerable resident of the little oriental colony, who died last night. His remains were interred in the Chinese cemetery at the foot of the hill, where a large number of mourners were present.

The services were conducted on a platform erected over the gutter, which was draped with a blue cloth. A large number of mourners were present, and the services were conducted in a most impressive manner.

At the close of the services an American band played and escorted the funeral cortege to the Santa Fe Bridge. From there it was accompanied by a Chinese band to the Chinese cemetery, where the remains were interred.

The brief ceremony at the grave was concluded, chief mourners gave a candy case to each of Wong Ark's friends, as a token of good luck. Those who were regarded as the aged Chinaman's closest friends received a 5-cent piece.

## CONFESSION IN CELL BRINGS CONVICTION

A confession which Edward J. Lynch made to his cellmate while awaiting trial in the County Jail on a grand larceny charge led to his being sentenced to San Quentin for a period of from one to ten years yesterday.

The verdict was found guilty by a jury in Judge Reeve's division of the Superior Court recently. The verdict was found guilty by a jury in Judge Reeve's division of the Superior Court recently.

The prisoner was convicted of stealing \$100 in cash and twenty-eight checks totaling \$116 from N. Bernard, a garage man of 1317 Orange street, on March 7. The checks were buried by Lynch in a house. After his arrest, Lynch told Bowman where he had buried the checks and told him to unearth and cash them. The proceeds were to be divided evenly between the two.

Bowman, however, informed police and Lynch's conviction followed.

## KHJ FAVORITE TALKS ON HATS

Dr. Eugene Francis Storke, widely known Los Angeles lecturer, has one of the largest audiences on the globe. He talks at KHJ every Friday night.

An excellent speaker, versed on a host of subjects, Dr. Storke never fails to hold the attention and interest of his hearers.

Last night his subject was "The Crown of Manhood," a humorous history of millinery modes. Rather than a distant call from his famous lectures on Shakespearean drama, but a timely topic now that the straw hat season is near.

Feminine radio fans were particularly anxious last night to hear Dr. Storke's genial disquisitions on millinery, but modes being dear to their hearts. Many wondered just where the lecturer obtained his information. He's a surprising fellow, in Dr. Storke, apt to talk on cabbages one week, and on kings the next.

## ROTARIAN OFFICERS INSTALLED

Los Angeles Club Enjoys  
Most Prosperous Year in  
Its History

Following reports from the various committee chairmen, which revealed the most prosperous and effective year in the history of Los Angeles Rotary, the newly elected officers of the club were installed by retiring President Harry Harper at the luncheon at the Alexander yesterday.

The new officers are: President, Harry Harper; vice-president, Clifford H. Hargis; secretary-treasurer, Samuel C. Hall; sergeant-at-arms, Will Knight; new directors, Charles W. Link, John C. Hendler and Horace Dunbar.

The speaker for the noon meeting at the Alexander, which was the first of the series, was Dr. Storke, who will discuss "The American Boy, His Problems, and Rotary's Duty to Him."

## Full Auditorium Is Promised for Carriers' Revue

The advance seat sale for the Letter Carriers' Revue, to be conducted at the Philharmonic Auditorium on the evenings of the 5th, 6th and 10th inst., has gone beyond expectations. According to Band Manager Joseph C. Fallon, at 9 o'clock Tuesday morning carriages for "reserved seats" began at the auditorium box office, and indications point to a full house for all three performances.

Downtown pedestrians will witness a parade of the entire letter carriers' band, consisting of sixty men, on the evening of the revue, when the band will turn out as a band in their new dress uniforms. Bands are modeled along military lines.

## PEEPER IS LECTURED

Judge Suspends Sentence of Man Caught Peering at Girls

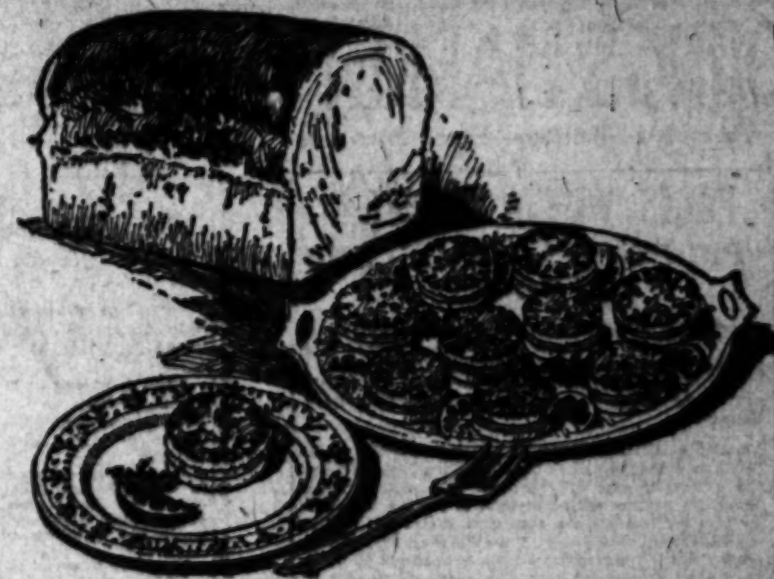

After a stiff lecture against "Peeping Tom" habits, Police Judge Crawford suspended a thirty-day jail sentence given Garnet Ringmuth, 25 years of age, charged with looking in a window at the Page School for Girls, 4811 Pasadena avenue, yesterday. Ringmuth was arrested by Police Officer Radican of Lincoln Heights station, when it was ascertained that the letter carrier's chorus will remain the feature of the bill. The chorus comprises 150 male voices.

## CHARGES SUSPICION CAUSE OF TROUBLE

Jealousy and suspicion poisoned Louis Schilling from the moment of their marriage, Mrs. Maria Hartman Schilling told Judge Summerfield yesterday in getting a divorce. She declared that the man was in the habit of turning up at her home, and when he began to curse her in the presence of others, she left him, she said. They were married in Pasadena in 1910 and separated last February. F. C. Dunham of Pasadena was Mrs. Schilling's attorney.

## Bread is Your Best Health-Builder

**R**OTIOUS, joyous health—the kind that commands your admiration—it the product of perfect nourishment plus exercise. And "perfect nourishment" depends more often than you think on the kind of bread you eat.

From HOLSUM comes 38% of the food energy required by the body daily. It supplies 57% of the proteins and 77% of the organic salts and minerals necessary to perfect health. Truly, HOLSUM is your best food, for no single food you eat contains nearly so much of the essential body requirements.

You cannot serve too much HOLSUM for few people eat nearly as much bread as they should. But always remember there are many grades of bread, and only the best will serve you best.

Try this recipe, tonight:

**Cheese Toast**  
With a blacut cutter, cut circles from very thin slices of bread. Put every thin slice of cheese between bread to form sandwiches. Butter each side of the sandwich and brown a very delicate brown in a frying pan. These toasted sandwiches are served hot.

## FACTS WORTH KNOWING "PIG PORK SAUSAGE AND PIG PORK?"

There is no "Pig Pork" or "Pig Pork Sausage" to be had anywhere. A pig is a pig and a porker is a porker. A pig is a delicious delicacy, usually roasted whole and served around the holidays. It would cost over \$1.00 per pound to make "Pig Pork Sausage."

YOUNG'S WILLOWBROOK PURE PORK SAUSAGE is made from pork shoulders, the cheapest and the sweetest part of the hog. We select these shoulders by a scientific method of testing the skin. By this method we are sure that WILLOWBROOK PURE PORK SAUSAGE, the only kind we sell, is made from the best parts of evenly aged young pork. It is the same every day and everywhere, and is guaranteed to be wholesome for any child or person. We use no artificial coloring in any of our sausage, nor adulterations in anything that we sell.

**QUESTION**

## RECORD SET BY AUTO THIEVES

Increase During April Totals  
100 Per Cent

Professionals Outnumbering  
Amateur Joy-Riders

Many Recovered by Bureau  
Detectives

Exceeding all previous records by more than \$500,000, auto thieves this year already have stolen approximately \$1,350,000 worth of motor cars in Los Angeles, according to an official report issued yesterday by the theft bureau detectives of the Automobile Club of Southern California.

During the month of April there were 403 autos taken by theft gangs in Los Angeles. During the same month last year there were only 210 cars stolen.

**MANY RECOVERED**

Up to this date last year there had been 145 machines taken from the city streets, while for the same period of time this year there have been 1254 reported missing because of the activities of the professional and amateur auto thieves.

Professional auto-theft gangs are outnumbering the amateur joy-riding class of thieves almost 5 to 1, according to authorities.

Of the number of autos taken from local motorists, 483 have been recovered by the police and club detectives. Last year at this time there had been 442 recovered. Four hundred and ninety-five Los Angeles auto owners are grieving the total loss of their machines today.

**DRIVEN EAST**

This is the number which has been stolen and never recovered, and it is the theory of Auto Club Detectives Ervin and Hickok that a large part of these cars have been driven East by the thieves just as soon as they were stolen.

Four motor cars stolen in Los Angeles are being brought back to this city from Salt Lake City, where they were found through a telegraphic barrage, as the auto thieves, driving them in a group, were making for an eastern point.

This is the time of the year when the auto thief is particularly active, say the authorities, because with the coming of spring he selects his vehicle for an eastern trip. Motorists should be particularly cautious in locking their cars in the downtown district, where the theaters and cafes in the downtown district.

**LAND QUESTION IS SETTLED**

Secretary Work Holds Irvine Ranch Title Impregnable; Not Open to Homesteaders

The last chapter in the attempt of homesteaders to secure settlements on what is known as Irvine Ranch, a part of the Rancho Lomas de Santiago, one of the garden spots of Orange county, has been written.

Register Valentine and Register Smith, of the local land office, have received word from Washington that Secretary of the Interior Work had decided all of the pending applications as null and void, as the land was not subject to settlement under the homestead laws, but the property of those now in possession.

**WOMAN BADLY  
INJURED WHEN  
TRUCK CRASHES**

BAKERSFIELD, May 4.—Locella Felix, 61 years of age, is in a local hospital and may die as the result of an auto truck, in which she was riding, turning turtle, twenty miles south of Lemoore last night. Five others were injured. A 100 stitches were taken in the lacerations sustained by Mrs. Felix on her scalp. An unidentified 12-year-old boy, Alveta Felix, 11, and Manuel Felix, 7, who sustained severe cuts and bruises, while Alfred Felix, 12, and Mike Felix, 27, are suffering with minor scratches and bruises.

Coming along a few moments after the accident occurred, W. H. Herria, 1473 West Thirty-seventh Place, Los Angeles, took the injured persons to the Bakersfield Emergency Hospital in his machine where they were attended by Dr. S. C. Long and Dr. P. J. Cuneo. The victims of the accident were traveling in the truck from San Fernando and were en route to Wasco. On a steep grade the brakes failed to hold and the driver lost control of the machine.

**BOY SCOUT CAMP  
SITE IS SELECTED**

VISALIA, May 4.—A temporary site has been selected by Scout officials for the camp of Tulare county Boy Scouts two miles above the Kettle Camp on the middle fork of the Kaweah River. A camp further in the hills is expected to be chosen for next summer.

The camp will be open from June 14 until July 2, with accommodations for sixty-four boys each week. Scoutmaster, George W. Thomas, county Scout executive, will be in charge.

**PLAY DAY FOR PUPILS**

HANFORD, May 4.—This was annual play-day for the children of the Kings county elementary schools and there was a gathering of some 2000 children at the Kings county fair grounds, adjacent to this city. The exercise opened with a general assembly of the pupils at 9 a. m. in the grand stand at the race track, where patriotic songs were sung. Physical education work was demonstrated by pupils of the first four grammar grades. Folk dances, singing, games and other features made up the forenoon program and at noon a basket lunch was served. The afternoon program consisted of sports for all grades of pupils.

**EXCLUSIVE DISPATCH**

At the time that the rush of applicants to the local land office was on, the attention of United States Atty. Burke was called to the matter, and Benjamin McLendon, connected with the psychological outfit, appeared before the District Attorney and land officers and made a statement. The investigation is still before the Federal grand jury. It is expected that there will be a report on the matter next week.

Investigators conversant with the situation declare that more than \$100,000 was paid out for "confidential information" in regard to the lands. And the outstanding feature of the situation was that when the would-be investors

## TWELVE ARE FREED FROM FRESNO JAIL

Prisoners Given Probation  
Provided They Accept  
Jobs in Alaska Fisheries

FRESNO, May 4.—Twelve men confined in Fresno County Jail for offenses ranging from intoxication to grand larceny, yesterday were granted probation. They left for fish canneries in Alaska.

This was the second party that recently left the jail under contract to spend six months in the Alaska fisheries, and one of numerous groups of prisoners recently released on the same basis from jails at Sacramento, Stockton, Merced, Oakland and San Francisco, according to Attorney R. K. Stewart of this city, who assisted Rudolph Fernalt, agent of the Alaska Packers' Association, in making arrangements for parole of the Fresno men.

List-Atty. George H. Lovejoy, member of the County Parole Board, that handled details of the release of ten of the men, said today that he had acted on information that they had an opportunity to obtain honorable employment and that he did not understand that they were under any compulsion to do anything but leave Fresno county.

The party left the jail here in a truck in charge of Fernalt and a former special policeman, who went along, according to Stewart, to see that the probationers did not escape en route from the prison here to the canneries ships on the San Francisco water front. Stewart said that if they should refuse to go to the canneries after making the trip to San Francisco there would be no way to force them to keep the contract. The only recourse would be in civil court action, he said.
